DR. PETERS ADVISES ON TEACHING FOREIGNERS.

English Instruction to Be Taken Up
at Y. M. C. A. in Fall.

Dr. Peter Roberts of New York, a
member of the international commit-
tee of the Y. M. C. A., spent all day
here on Tuesday in conference with
General Secretary Frederick R. Stark
and the new assistant secretary,
J. Harold Ely, upon the work of the
international committee which is to be
conducted in the coming season by the
Norwich Y. M. C. A. This is in the
teaching of English to foreigners.

Dr. Roberts, who is an authority on
this subject in Y. M. C. A. work, and
the author of a course of instruction,
went over the book work thoroughly
with Assistant Secretary Ely, and also
spent considerable time getting ac-
quainted with local conditions.

With the two Norwich association
officers, he visited different men in the
city who are acquainted with the for-
eigners, and the book work was thor-
oughly presented a grand field for the
work, he said, since an industrial cen-
ter, which is the case with the Y. M. C. A.,
foreigners, because his shops present the
opportunity for him to become a wage
earner at once. Not many of them
have money enough to take up farm-
ing, but they must get to work where
they can have more immediate finan-
cial returns. The shop starts such a
place, so that it is in industrial
New England where the Y. M. C. A.
has been, and in Massachusetts, as
one of the industrial states of New
England, has been much helped in this
work, but Massachusetts and Rhode
Island have taken it up with in-
creasing interest. In Massachusetts,
the Y. M. C. A. has 32 educational
centers, and the work has the endorse-
ment of manufacturers since they find
a constantly increasing improvement
in the quality of their foreign born
help with their growing knowledge of
the language and other points
taught in the Y. M. C. A. course.
